PROFESSIONAL SUMMARY

Results-driven Software Engineer with 1.7 years of experience specializing in scalable Full-Stack Development using the MERN stack. Strong foundation in Data Structures, Algorithms, RESTful API design, JWT authentication, RBAC authorization, and database indexing. Proven track record of optimizing backend performance by 30% and streamlining deployments with Docker and CI/CD pipelines.

EXPERIENCE

VisionPuls

May 2025 – May 2026

Software Engineer

India

- Engineered and maintained scalable, high-performance web applications using the MERN stack, supporting core business operations for [X,000]+ monthly active users.
- Architected and integrated secure RESTful APIs, implementing database indexing that reduced server response times by 30%.
- Streamlined deployment workflows using CI/CD pipelines and Docker, achieving 99.9% uptime and ensuring zero-downtime releases across [X] environments.

GoyaFly.com

Oct 2024 – May 2025

Software Engineer Intern

India

- Built and optimized interactive user interfaces using React.js and Tailwind CSS, improving client-side rendering speed by [X]%.
- Assisted in backend API development with Node.js and Express.js, implementing robust database schemas that processed [X]+ data entries daily.
- Resolved [X]+ critical UI bugs and collaborated with a team of [X] senior developers, increasing overall code maintainability and test coverage by [X]%.

PROJECTS

Vision Plus Smart Classes Module | visionplusglobal.in

- Developed an interactive e-learning module facilitating seamless collaboration among [X]+ school administrators, teachers, and students.
- Integrated scalable multimedia content delivery and real-time formative assessments, boosting student engagement metrics by [X]%.

GoyaFly Ticket Booking Platform | [GitHub](https://github.com)

- Built a comprehensive ticket booking system using the MERN stack, handling [X]+ dynamic search queries daily with real-time availability sync.
- Designed an intuitive React.js UI and integrated secure payment processing, successfully facilitating [X]+ seamless user transactions per month.

TECHNICAL SKILLS

Languages: C++, JavaScript (ES6+), SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, RESTful APIs

Database: MongoDB, Database Design, Indexing

DevOps & Cloud: Git, Docker, CI/CD, Render, Vercel

Concepts: OOP, System Design Basics, Caching, Big-O Analysis

EDUCATION

Centurion University of Technology and Management

2020 – 2024

B.Tech in Computer Science and Engineering - **CGPA: 8.0**

Odisha, India

DATA STRUCTURES AND ALGORITHMS

Solved **300+** algorithmic problems on LeetCode and GeeksforGeeks, demonstrating high proficiency in Trees, Graphs, and Dynamic Programming.
